REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to contiguous spans which encompass nucleotides from 3456-3572 or 5028-6086 or probes which CONSIST of at least 16 nucleotides but not more than 61 nucleotides which overlap the specific listed positions. There is no prior art which teaches the probes which overlap the specific positions or suggests or motivates synthesis of these specific probes. With regard to the polynucleotides comprising positions in 3456-3572 or 5028-6086, these regions are novel and unobvious. Therefore, the claimed invention is novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
